PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building responsive websites and web applications using HTML, CSS, JavaScript, Python, and Flask, with strong front-end development and back-end integration skills. Pursuing MCA (CGPA 9.01) with a collaborative mindset and proven ability to deliver practical, user-friendly web solutions for real-world business requirements.

EXPERIENCE

Junior Full Stack Developer | Builtline Construction | July 2026 – Present

- Reduced manual attendance and site-record handling by developing an internal construction management web application using Python, Flask, JavaScript, HTML, CSS, and Bootstrap with Supabase database integration.
- Improved data accuracy across [N] construction sites by implementing role-based access for Admin, Site Engineer, and Site Supervisor, covering attendance, overtime, and workforce management features.
- Strengthened application reliability by building and testing backend REST APIs with Postman, applying web development best practices for clean, maintainable, and scalable code.

Full Stack Developer Intern | Builtline Construction | Jan 2026 – Jun 2026

- Delivered two production-ready responsive business websites (construction and interior design) by writing clean HTML, CSS3, JavaScript, and Bootstrap code, ensuring cross-browser compatibility and mobile responsiveness.
- Improved online visibility by implementing SEO optimizations and contact form integration via EmailJS, and managed full deployment pipeline including domain and hosting configuration on Hostinger.

PROJECTS

Construction Management & Attendance Web Application

- Built a multi-role web application to manage site operations, workforce attendance, and project records across multiple sites, reducing manual tracking effort by [X%].
- Integrated REST APIs and Supabase database services to securely handle records; applied problem-solving skills to troubleshoot data consistency issues across role-based workflows.
- *Technologies:* Python, Flask, JavaScript, HTML, CSS, Bootstrap, Supabase, REST API, Git

Builtline Construction & Interior Nivas Business Websites

- Developed and deployed two responsive production websites with interactive UI components, SEO optimization, and contact functionality, enhancing client reach and user experience across devices.
- *Technologies:* HTML, CSS, JavaScript, Bootstrap, EmailJS, SEO, Git, Hostinger

EDUCATION

Master of Computer Applications (Final Year) | Rajarajeswari College of Engineering | Dec 2024 – Sep 2026 | CGPA: 9.01/10

Bachelor of Science – Computer Science | Maharani Cluster University | Nov 2020 – Oct 2023 | CGPA: 8.05/10

SKILLS

Technical: HTML, CSS, JavaScript, Python, SQL, Responsive Web Design, Front-End Development, Back-End Web Development, REST API, SEO, Web Design

Tools: Flask, Bootstrap, ReactJS, Git, Supabase, MySQL, Postman, VS Code, PyCharm, Hostinger, EmailJS

CERTIFICATIONS

- Full Stack Developer Internship Certificate (6 Months) — Builtline Construction, Jun 2026
- Python Full Stack Developer — Jan 2024
- Soft Skills Program — Mar 2023
